

Advanced Locking Solutions  
8115 SW Nimbus Ave., Bldg. 11  
Beaverton, Oregon 97008

Dear Valued Customer,

We wanted to take a moment and reach out to you during this challenging time brought about by the COVID-19 pandemic.

First, it is our hope that you, your staff, and your family are staying healthy at this time.

We at Advanced Locking Solutions wanted to let you know we have implemented the following to create a safer workplace for our employees and so that we can continue to provide critical support to our customers during this serious period.

- We have increased our social distancing policies and taken steps to make sure that employees have adequately spaced workstations.
- We have increased sanitation stations in our offices, warehouses, and mobile vehicles.
- We have gone over procedures for proper sanitization of work stations, as well as sanitization of the door hardware we install at your facility.
- We are monitoring federal, state, and CDC recommendations, mandates, and guidelines which require us to take immediate action.

As we follow this situation closely, we will continue to update you regarding changes in our regular operations.

As we are all well aware, one of the transmission point's for this disease is from touching door handles that have the virus present. As you can imagine, being in the business of selling door handles, locks, and door hardware, this is of high personal concern to us so that we can protect our customers and their health. We want to make you aware that to help limit the spread of this disease we are stocking additional no-touch style hardware, such as:

- ADA touchless actuators
- Foot pulls
- Anti-microbial coated levers and panic hardware

Again, please know we are here when you need us and ready to provide assistance during these difficult times.

Please feel free to contact us with any questions or concerns.

Thank you!

Advanced Locking Solutions Team
